OHAUS EXPLORER®

Analytical, Precision, and High Capacity Balances

Expanded Features

The most intuitive line of balances ever produced by OHAUS just got even smarter with the introduction of additional models that were developed to further meet the needs and goals of laboratory professionals. The new additions include high-capacity models for more heavy duty jobs, analytical models that offer automatic motorized doors to boost efficiency, as well as models that require traditional external calibration for a more classic approach.

The Explorer series is now even more...

Intelligent.

Intuitive.

Ingeniously Practical

optional
tower mount
and rolling feet*

The OHAUS Explorer® has expanded its features, design, and capabilities to provide unmatched functionality in a line of high-performance balances unlike any other on the market!

Intelligent CALIBRATION

AutoCal™ ensures performance and assists with routine maintenance by automatically calibrating the balance daily.

In addition to AutoCal™ models, external calibration models are now available to offer a classic alternative for those that prefer traditional calibration methods.

Intuitive WEIGHING

The Explorer series now includes three high-capacity precision models with capacities up to 35 kg.

Explorer high-capacity balances offer the same intuitive features, such as AutoCal™ and a 1 second stabilization time, with additional functions and attributes to support higher capacity weighing applications.

Ingenious DRAFTSHIELD

Ample access to the weighing chamber through top-mounted side doors or through the versatile top door that flips or slides open.

Select models feature motorized side doors that open and close automatically with use of the touchless sensors on the base and display.

Practical FEATURES

Fast stabilization time, up to four touchless sensors, up to 13 operating languages, NTEP and OIML models available, menu lock switch, security bracket, integral weigh below hook for below balance weighing applications, removable stainless steel weighing pan, stability indicator, overload and underload indicators, auto standby.

OHAUS Corporation

Headquartered in Parsippany, NJ, OHAUS Corporation manufactures an extensive line of high-precision electronic and mechanical balances and scales that meet the weighing needs of virtually every industry. We are a global leader in the laboratory, industrial, and education channels as well as a host of specialty markets, including the food preparation, pharmacy and jewelry industries. An ISO 9001:2008 manufacturer, OHAUS products are precise, reliable and affordable, and are backed by industry-leading customer support.
